

### Number of Reports Received in 2016

	Reports to the Title IX Coordinator / Responsible Employees <sup>1</sup>	Reports to Confidential and Anonymous Resources <sup>2</sup>
Sexual Violence	5	6
Domestic Violence	0	1
Dating Violence	5	4
Stalking	5	0

<sup>1</sup> There were 13 reports of sexual violence, dating violence, domestic violence, or stalking, collectively, alleged to have occurred within the College's Clery geography (or at an unknown location that may have been in the Clery geography) received by the College's Title IX Coordinator and responsible employees in 2016. One of the 13 reports alleged multiple types of infractions. As requested in the Attorney General's FAQ's, each infraction is counted separately in these charts, so the total number of reported offenses listed is 15.

The number of reports listed here is one larger than the number reported in the College's Annual Security and Fire Safety Report due to the inclusion in this chart (per the Attorney General's FAQ's) of an additional report of sexual violence for which the complainant did not articulate a location of the alleged incident. Incidents reported in the Annual Security and Fire Safety Report are limited to those reported to have occurred within the College's defined geography under the Clery Act.

<sup>2</sup> The College's Health and Wellness Center is the College's on-campus confidential resource that provides students with health and counseling services. Counselors in the Health and Wellness Center also serve as trained confidential advisors under the Act who provide survivors of sexual misconduct with emergency and ongoing support. The Health and Wellness Center provides the Title IX Coordinator with aggregate data on the number of sexual violence, domestic violence, dating violence, and stalking reports made confidentially to the Center but does not share information on the identity of the parties or specifics of incidents reported confidentially. Some incidents may have been reported to both the Health and Wellness Center and to the Title IX Coordinator, and would thus be listed as duplicates in both columns in Chart 1.

Chart 2

This chart indicates the number of reports: 1) in which the complainant requested not to proceed with the formal resolution process; 2) that the College investigated (including preliminary inquiries); 3) that were referred to law enforcement; 4) in which informal resolution was used; and 5) that were adjudicated through formal resolution. Part C above provides a detailed discussion of the College's processes for handling reports of sexual misconduct.

**Responses to Reports Made to the Title IX Coordinator or Responsible Employees**

	Complainant elected not to proceed with formal complaint resolution process <sup>3</sup>	College investigated allegation (includes preliminary inquiries) <sup>4</sup>	Allegation reported to local or State law enforcement <sup>5</sup>	College resolved matter using voluntary informal resolution <sup>6</sup>	College adjudicated matter using formal complaint resolution process
Sexual Violence	2	5	2	2	2
Domestic Violence	0	0	0	0	0
Dating Violence	4	5	0	1	1
Stalking	1	5	3	4	1

<sup>3</sup> The numbers in this first column reflect potential complainants who requested not to proceed with formal resolution against a member of the College community and potential complainants who did not respond to outreach from the Title IX Coordinator. Part C provides a discussion of the factors that the College considers when a complainant requests not to proceed with the formal complaint resolution process.

<sup>4</sup> The number of reports the College investigated includes preliminary inquiries, during which the College assesses the nature of the alleged violations, the parties involved, threat to the community, complainant's preference for resolution, etc. This number also includes reports where the College utilized the formal complaint resolution process to resolve a complaint.

<sup>5</sup> The College always informs potential complainants of their right to report an incident to law enforcement and offers to assist in the referral, but does not automatically refer matters to law enforcement. The numbers in this column reflect matters where the College is aware that the complainant reported an incident to law enforcement, with or without the College's assistance.

<sup>6</sup> The College may use voluntary informal resolution in some cases to stop the alleged sexual misconduct, address its effects, and prevent recurrence without a formal investigation and disciplinary action. Informal resolution may include actions such as no-contact orders, no-trespass orders, protective measures, and training. See Part C above for a discussion of informal resolution.

### Chart 3

The following chart indicates the outcomes in cases where the complainant sought formal resolution of a report of sexual violence, stalking, domestic violence, or dating violence complaint against a student through the College's Sexual Misconduct Complaint Resolution Procedure.

Part C above provides a discussion of the College's processes for adjudicating complaints of sexual misconduct and determining sanctions. As set forth in Chart 2 above, the College resolves some matters using voluntary informal resolution.

### **Outcomes of Cases Following Formal Resolution**

	Respondent found not responsible for violation	Respondent dismissed / expelled	Respondent suspended <sup>7</sup>	Respondent otherwise disciplined
Sexual Violence	0	1	1	0
Domestic Violence	0	0	0	0
Dating Violence	0	0	1	0
Stalking	1	0	0	0

<sup>7</sup> In the two formally adjudicated cases in 2016, the College found one respondent responsible for two violation types and not responsible for another violation type, and the other respondent responsible for one violation type. As requested in the Attorney General's FAQ's, the chart lists each violation and finding separately.
